The awarded vendors' pricing and information can be found on the Award Detail spreadsheet.

SPECIFICATIONS, PREPARATION AND EVALUATION PROVIDED BY:

Rebecca Hernandez – ESC Region 19

Andrea Amiri – ESC Region 19

Rena Lawrence - ESC Region 19

Special Conditions

1. The awarded Liquid Waste Transporter (LWT) will be certified and be licensed to perform the work and any related services. Copies of all certifications and licenses must be submitted with proposals.
2. A statement regarding specific disposal procedures including final destinations of waste will be part of the proposal submittal.
3. The LWT will have adequate equipment for large loads and have an on-board pressure washer to remove solidified grease from sidewalls and bottoms, and ability to clean out traps from fleet washes, car and truck service shops, sand traps, oil/water separators, clarifiers are some of the type places that require pumping

and disposal of mud, sand, water and oils. Any place that washes vehicles, equipment, floors, etc. usually have a sand trap interceptor that catches the sand, grit, mud and oils from these items and areas, including lint traps are found anywhere that high-volume laundry service takes place this would include hospitals. Lint traps are unique in that sediment (lint) accumulates from the bottom up.

4. No waste materials will be returned to the grease interceptor under any circumstances.
5. The LWT will provide a check off list for management's review prior to leaving the premises where the waste has been removed and the proper procedures including cleanup are approved by the customer.
6. The LWT will notify the customer of any detected leaks while servicing grease interceptors.
7. The LWT will notify the customer on any non-compliance issues by the customer in writing within 24 hours of service calls.
8. Proof of all applicable permits and licenses (including but not limited to The Texas Natural Resource Conservation Commission, the PSB, and the City of El Paso) for these services must be submitted with proposals for award consideration.
9. Awarded vendor will comply with all rules and regulations as specified by the Public Service Board responsible for oversight and compliance.
10. All vehicles must have pressure sprayers and jet sprayer capabilities installed and working at all times.
11. Completed 5-part carbonless manifests will be generated for each location and each interceptor serviced in compliance with the PSB (signatures by both parties will be performed prior to leaving the premises where services were performed with first copies being correctly distributed to the customer, the contractor, and the PSB.
12. The awarded vendor or vendors will upon any notice of alleged violations during the contract term, notify the ESC Region 19 Purchasing Department in writing of those specific violations and/or suspensions, regardless of the circumstances.
13. Pricing quotes must include but not be limited to include all transportation fees, insurances, permits, manifests, cleaning, minor repairs, and any other fees for disposal of waste in compliance with local, state, and federal requirements. Major repairs will be contracted through licensed plumbers.
14. All services will be conducted by awarded contractor in normal working hours (7:30 AM up to 5:30 PM) unless it is an emergency with times being worked out between client and the contractor.
15. Vendors will be required to take measurements and provide capacities and specifications back to each entity after the service has been performed for the first time.
16. Awarded vendor and transporter must dispose of the grease/interceptor waste at a facility where; 1) the owner or operator of the disposal facility agrees to receive the waste, 2) the facility is authorized by the Texas Commission on Environmental Quality (TCEQ) to accept grease waste under Type V Municipal Solid Waste Permit; and 3) the facility is located within County vendor is providing services to.
17. Vendors must provide written documentation with proposals that they are permitted grease haulers by TCEQ and the Water Utilities, or the County and State they are submitting for award consideration.
18. This RFP allows up to ten percent (10%) of the total contract to be purchased with non-listed items.
